DETAILED ACTION

Appeal Brief

The appeal brief filed 5/24/04 has been entered and considered.

Response to Arguments

In view of the appeal brief filed on 5/24/04, PROSECUTION IS HEREBY REOPENED.

Applicant's arguments, with respect to Nguyen's failure to teach an anodic bond to form a hermetic seal between the first and second members have been fully considered and are persuasive. The final rejection of 1/27/04 has been withdrawn.

REASONS FOR ALLOWANCE

Claims 21-34 have been allowed over the prior art

The following is an examiner's statement of reasons for allowance: Prior art could not be located that taught a silicon member and a LTCC member anodically bonded together to form a hermetic seal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. WO 01/29890 is cited as teaching substantially the same invention but is not available as prior art.
